Re: Banner Cascade Pipeline Project – 50% Design Meeting  
APN: «APN»; Nevada County

Dear Property Owner:

Progress on the design for the Banner Cascade Pipeline Project continues to move forward. The final EIR for this project stated that three public meetings would be held during the design process to keep the community involved in the project. These three meetings will be held at the 10%, 50% and 90% design level. We held the 10% design meeting back in July and we are planning to have a 50% design meeting in January.

We would like to invite you to this 50% design meeting that will be held on **Thursday January 15, 2009, from 3:00 p.m. to 6:30 p.m.**, at the Nevada County Horsemen Club located at Bubbling Wells Road and Brunswick Road. This meeting will be similar to the 10% design meeting in that it will be an informal open house workshop which will give property owners another opportunity to view the progress in the pipeline design and talk with the project team. We will meet individually with each property owner to discuss the project and design at your property. The designs are more detailed and show locations of the pipelines, service assemblies, fire hydrants, and other pipeline appurtenances. This workshop will offer you an opportunity to see how the pipeline alignment and the pipeline appurtenances pertain to your property.

We have scheduled the workshop to accommodate schedules for as many property owners as possible. You can arrive at anytime during the open house workshop and representatives from NID and the design consultants will be there to talk with you on an individual basis.

We hope you will be able to attend this workshop. If you are not able to attend but would like to speak with me or a project team member, please call me at 530-271-6869 so we can arrange a time.

Sincerely,

Brian Powell, P.E.  
Special Projects Manager
